

NEW ENGLAND RAILROAD CLUB

NEW STUDENT MEMBER APPLICATION

The New England Railroad Club provides a forum for the exchange of information and ideas related to the construction, maintenance and operation of railroads providing both freight and passenger services throughout the region and nation. Established in 1883 the Club membership includes representatives of railroads, railroad suppliers and service providers, as well as other professionals engaged in policy or programs related to railroad services. Through the years members of the New England Railroad Club contributed significantly to the development of standards adopted throughout North America for freight and passenger equipment, safety of operations and construction standards and practices.

New student members are encouraged to participate in all programs and activities of the Club that include four dinner meetings per year, a scholarship program and the New England Rail Technical Conference. Scholarships are awarded each year to the children, grandchildren and spouses of members in good standing, and student members attending an accredited institution of higher learning.

Please submit the following information, along with a copy of a valid student ID, New England Railroad Club and mail to: Dagle Electrical Construction Corp. Attn: Stephanie Lavino 68 Industrial Way Wilmington, MA 01887.

All student membership applications need to be approved by the Executive Committee at an Executive Committee meeting. New student members will be announced during the next dinner meeting.
